

SCOTT & MARIA - 'HOME'

RELEASED 8TH JULY 2021

Brighton (UK) based **Scott & Maria** create acoustic music straight from the heart, immersed in soulful harmonies. Their beautiful indie folk sound rouses the spirit and soothes the soul. They take great inspiration from nature and the human journey.

New single **Home** is set for release on Thursday July 8th 2021. Inspired by a life on the English coast and written during the turbulent year of 2020, the song is a reminder that even when we are living through a wild storm, our hearts can be a beacon of safety. When we feel love, we feel home.

The song was recorded in two separate countries and features a lockdown collaboration with French pianist Vanessa Sanfilippo, and Birmingham's Forbes Coleman on bass and electric guitar. Two versions of the song will be released – one with full instrumentation, and another stripped back piano version. It will be accompanied by a video with footage filmed on the island of Bali, Indonesia.

Home is the fifth single from upcoming album 'Wish Me Away' which will be released later in 2021. It follows single releases 'Mother Calls', 'All I Am', 'Walk My Own Road' and 'Animal' which received airplay across the UK (including BBC Introducing), Australia, USA, Canada and Germany.
