

## Ancestors

I've come to heal my mother and father  
I've come to heal the land I'm on  
Coming through all time and space  
All beings divine with endless grace

Only Love, Holy Love x4

I've come to heal my mother and father  
I've come to heal the land I'm on  
All ancestors guide me through  
To the state that's present and true

Only Love, Holy Love x4
